A new way to explore cultural heritage with AI

Heritage Lens

DEMO VIDEO

Larissa Terranova - Digital Humanities Researcher

What if we could just ask a question?

Transform specialised knowledge into conversational exploration

Heritage Lens

01 Natural, everyday language queries

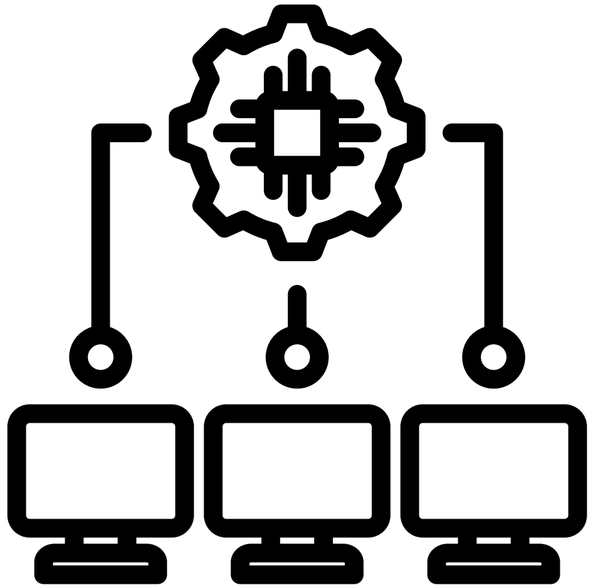

02 Instant access to relevant content

03 Not just text → also images and maps

04 Fast, accurate, and accessible to everyone

The Three Specialised Assistants

Heritage Lens

The Research Assistant | Searches through documents using semantic understanding to find the most relevant passages

The Visual Curator | Retrieves related images, maps, and archaeological artefacts using CLIP vision models

The Quality Checker | Ensures answers are accurate, grounded in sources, and properly referenced

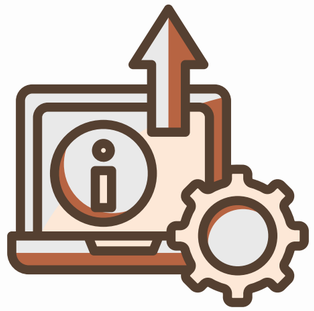

RAG (Retrieval-Augmented Generation) + CLIP Vision Models + GPT-4 Turbo

Three Steps Framework

The system finds relevant text passages about important sites and more

1. SEARCH

Locates archaeological site photos and artefact images

2. RETRIEVE

Creates a clear answer combining both sources

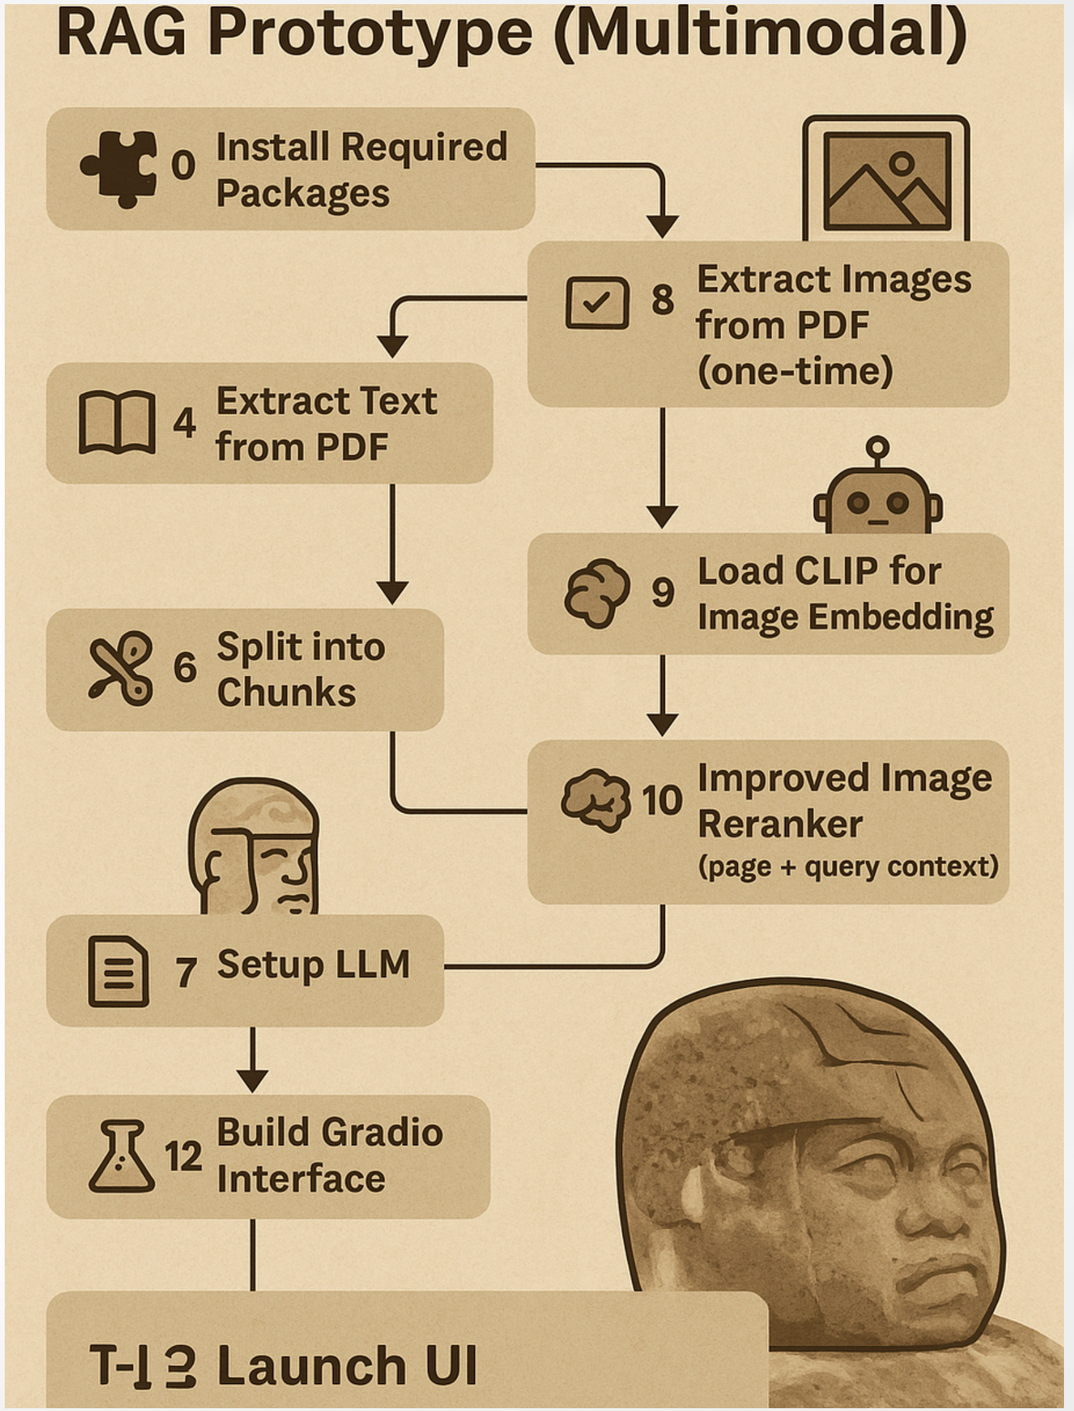

3. EXPLAIN

1. SEARCH →

2. RETRIEVE →

3. EXPLAIN →

Research Framework: Ruta de la Obsidiana

- **Directed by** Centro Studi Americanistici “Circolo Amerindiano” (CSA) – Perugia, Italy
- **In collaboration with:**
- University of Salerno – Humanities Department
- National Autonomous University of Mexico (UNAM) – Institute of Anthropological Research
- **Focus:** dynamics of cultural change from the Olmec to post-Olmec phase
- **My role:** sub-project researcher on Olmec urbanisation (Centro Studi Americanistici “Circolo Amerindiano”)

Title: *Ruta De La Obsidiana*

Country: Mexico

Location: Cerro De Las Mesas / Paso Del Bote, Mpio. Tlalixcoyan (Ver., México)

Abstract: Ruta de la Obsidiana is an international and interdisciplinary research project on the dynamics of change of Mesoamerican indigenous cultures, with specific reference to the transition from the Olmec to the post-Olmec phase.

Brief presentation of the project

Institutions:

The project is directed by the Centro Studi Americanistici “Circolo Amerinidano” onlus (CSACA) in collaboration with the following institutions (in alphabetical order):

- Humanities Department of the University of Salerno.
- Institute of Anthropological Research, National Autonomous University of Mexico (UNAM), CDMX (Mexico);

Geographical location of Central Veracruz where the area of Cerro de las Mesas is highlighted

Members of the project:

The project is divided into 5 sub-projects (SP). The researchers responsible for the elaboration and direction of the sub-projects are:

- Dr. Romolo Santoni, president of the Centro Studi Americanistici “Circolo Amerinidano”; general director of the project and director of sub-project 1;
- Dott.ssa Larissa Terranova (Centro Studi Americanistici “Circolo Amerindiano”), collaborating of sub-project 1;
